Aiming Higher...

Training and practice are the cornerstones of sporting success. And the more individuals or teams win, the more they want to maintain that winning streak. Why?

Success, recognition and reward are amazing motivators.

Your business teams are no different – they want the success that comes from aiming higher.

With the timely and relevant training intervention you can proactively avoid skills gaps, low morale, lacklustre results, and difficult performance conversations which are a drain on resources and get in the way of success.

You can ensure skills are gained or developed to maximise succession planning and internal promotions for effective people management, making sure the right people are able to move to the right roles. This means big savings through less staff attrition and recruitment costs.

The skills, focus and determination to meet their targets... and to create high performance that brings the results you want.

GBC Learning and Development are specialists in running training events that make great things happen – whether that's for one or two individuals on our regular workshops or our group in house programmes run by our subject experts specially for you.

A brain-picking discussion is free so when you are aiming higher give us a call on 020 7256 6668 or email us on info@gbclearning.co.uk

FREE Training Needs Analysis

The best results start with some probing questions – generally and individually. What result do you want to achieve? What's the gap? How will training close it?

Each delegate receives a Pre-course Questionnaire reviewed by the trainer in advance of the event. This means the trainer can give not only each group but also each delegate a focused experience, whether on an open course or with an in-house group.

Customised Options

Choose from a wide range of topics and different learning styles. An experienced consultant/adviser will work with you on your brief, ensuring the content and style meets your objectives and budget. Blend different learning methods together to fit your needs exactly.

Executive Coaching

Today's workplace is increasingly challenging with high expectations to deliver results. And that's where one-to-one coaching programmes deliver. Our experienced coaches are dedicated to understanding each individual's needs, working confidentially and effectively. Through working together with their selected coach each individual, or team, gains personal and business critical insights that positively impact on current and future success. The process gives clear focus, improves capability and confidence to perform.

Our coaches allow delegates to solve their own problems by facilitating structured, goal focused conversations, giving the space and time to review, clarify, challenge and explore their own situation and commit to action. The process enhances performance and develops key strengths to support promotion, motivation and reduce stress. We have experienced coaches at all levels suitable for the graduate intake or members of the Board.

To find out more and unlock the benefits of coaching for you or your organisation please call 020 7256 6668

Action Plan Coaching!

A course is the start of a journey, not the destination. Delegates often need support to carry out the priorities and change in their Action Plan.

An optional one-to-one short telephone-coaching session to focus on their challenges, commitment and construct a SMART action plan makes an amazing difference. Add it on when you book your next delegate and try it out.
